I. INTRODUCTION

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Specifically, Title VI provides that "no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." (42 U.S.C. Section 2000d).

The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of Federal-aid recipients, sub-recipients, and contractors whether those programs and activities are federally funded or not.

During the Obama Administration, the Federal Transit Administration ("FTA") placed renewed emphasis on Title VI issues, including providing meaningful access to persons with Limited English Proficiency ("LEP").

Recipients of public transportation funding from FTA and the Metropolitan Washington Council of Governments ("COG") are required to develop policies, programs, and practices that ensure federal transit dollars are used in a manner that is nondiscriminatory as required under Title VI.

This document details how Woodley House, Inc. incorporates nondiscrimination policies and practices in providing services to the public, in accordance with Contract No 17-055, a Sub-grant between COG and Woodley House, Inc. for Van Acquisition Project.

II. OVERVIEW OF SERVICES

Woodley House is an innovative, community-based organization dedicated to helping people with mental illness live full and healthy lives with dignity. Founded in 1958, Woodley House has served as a pathway to recovery for thousands of Washington, DC area residents by offering safe, affordable housing options and a comprehensive range of services and support. We offer nurturing homes with a family-style environment in residential neighborhoods conducive to recovering. Serving more than 300 adults each year, we are committed to empowering our clients -- on an individual basis -- to achieve productive, independent living.

Crossing Place is our 8-bed short-term crisis home, located in the Woodley Park area, and professionally staffed 24/7 with part-time psychiatric and nursing assistance, for individuals who need intensive supervision for stays of up to 14 days as an alternative to hospitalization.

Valenti House, our 20-bed flagship home, is professionally staffed 24/7, also in the Woodley Park area, and provides longer term supportive housing for men and women with mental illness.

Holly House, our 8-bed group home, professionally staff 24/7, located in the Shepard Park neighborhood, provides permanent supportive housing for chronically homeless adults with mental illness.

Our Supported Independent Living Apartment Program provides shared apartments located throughout the city for adults with mental illness, who no longer need 24/7 supervision, yet require affordable housing with supportive services to help them maintain their independence.

Our Life Skills Training Program offers a critical lifeline for people living with severe mental illness who are re-entering community living. It teaches basic skills that have become diminished due to their illness, such as personal hygiene, maintaining a home, communication, money management, nutrition, medication compliance and job readiness. Skills Training Specialists work with residents on a one-to-one basis and in small groups, depending on individual needs.

Our Food Pantry provides access to free food staples for Woodley House residents and our DC Neighbors-in-need. Open every Tuesday afternoon, it is conveniently located at our Valenti House location close to the Metro and public transportation.

Transportation Services: Woodley House provides transportation services only for current residents who are unable to meet their transportation needs through existing public transportation, para-transit services, or Core Service Agencies. Woodley House has up to 90 residents in its residential programs at any given time, and must provide transportation in the event of an emergency and for disaster preparedness. On occasion, group activities are scheduled for which Woodley House provides transportation for its residents. Transportation is provided to fill gaps and needs for its current residents that are not otherwise met through existing transportation services. Transportation is not provided for the general public.

The Civil Rights Restoration Act of 1987 broadened the scope of Title VI coverage by expanding the definition of the terms "programs or activities" to include all programs or activities of Federal Aid recipients, sub recipients, and contractors, whether such programs and activities are federally assisted or not.

This list shall be included in the Title VI Program submitted to COG every three years (3) and new information regarding complaints, lawsuits, or investigations shall be provided to COG with the Quarterly Report.

APPENDIX D -- INVESTIGATIONS, LAWSUITS AND COMPLAINTS REPORT

4. REQUIREMENT TO PROVIDE PUBLIC OUTREACH AND INVOLVEMENT

Woodley House, Inc. is not a fixed route, public transit provider. Transportation services are, provided only to Woodley House residents who are Seniors or Individuals with Disabilities, through the Section 5310 Enhanced Mobility Program, with Federal funding from the FTA, administered by COG. As such, requirements for Public Outreach and Involvement and a Public Participation Plan are not applicable to the transportation services provided by Woodley House.

Woodley House does, however, involve public participation in providing services offered to seniors and individuals with disabilities through a variety of means, such as inclusion of a Woodley House Program Representative on its Board of Trustees, participation in DC Department of Behavioral Health provider forums and outreach, Capital Area Food Bank partnership and participation, hosting meetings of residents for feedback on needs and services provided, and conducting consumer satisfaction surveys with results provided to the Board of Trustees and DC DBH, to maintain certifications for human care agreements with the District government.

Woodley House is a provider of Mental Health Rehabilitation Services and Supported Residential Services through the DC Department of Behavioral Health, the US Department of Housing and Urban Development, the US Veteran's Administration, AmeriHealth (DC Medicaid provider), and private mental health service providers. Woodley House is required to maintain policies and procedures¹, which are reviewed annually, to ensure the public's rights and participation in Woodley House services. Below is the list of relevant policies:

- Anti-Discrimination (#5);
- Complaint and Grievance Procedures (#9);
- Client Rights and Choice Policies (#26);
- Consumer Abuse and Neglect Policy (#1);
- Corporate Compliance Plan (#13);
- Continuity of Operations Plan and Disaster Preparedness Plan (#20);
- Quality Improvement Policy (#33);
- Cultural Competency Policy (#18), and Interpreter Policy (#22).

The above policies and practices² also apply to Woodley House obligations, as required by Title VI of the Civil Rights Act of 1964, to utilize effective means of providing information and receiving public input on services provided from low income, minority and limited English proficient ("LEP") populations.

In accordance with DC and Federal regulations, Woodley House must take reasonable steps to ensure that LEP persons have meaningful access to programs and activities. This means that public participation opportunities, normally provided in English, should be accessible to persons who have a limited ability to speak, read, write, or understand English. Woodley House will make these determinations based on a demographic analysis of the population(s) affected, individual

needs of clients, the type of program and/or service under consideration, and the resources available. Efforts to involve minority and LEP populations in services and activities include measures, such as providing targeted services to address linguistic, institutional, cultural, economic, historical, or other barriers that may prevent minority and LEP individuals from effectively participating in our programs.

EFFECTIVE OUTREACH PRACTICES:

- Determine and identify meetings and activities that lend themselves to client participation.
- Scheduling meetings at times and locations convenient for minorities/LEP clients.
- Employing different meeting sizes and formats, to include one-on-one and groups.
- Coordinating with Core Service Agencies and DC Government agencies to implement strategies that specifically reach members of affected minority/LEP communities.
- Providing opportunities for client participation, other than through written communications.
- Providing Language Access Services specific to identified individual needs.

5. REQUIREMENT TO PROVIDE ACCESS FOR LIMITED ENGLISH PROFICIENT (LEP) PERSONS

LANGUAGE ASSISTANCE PLAN FOR PERSONS WITH LIMITED ENGLISH PROFICIENCY (“LEP”)

LEP is a term that defines any individual not proficient in the use of the English language. The establishment and operation of an LEP program must meet the objectives set forth in Title VI of the Civil Rights Act and Executive Order 13116, Improving Access to Services for Persons with Limited English Proficiency (LEP). This Executive Order requires federal agencies receiving financial assistance to address the needs of non-English speaking persons. The Executive Order also establishes compliance standards to ensure that the programs and activities that are provided by a transportation provider in English are accessible to LEP communities. This includes providing meaningful access to individuals who are limited in their use of English. The following LEP language implementation plan, developed by **Woodley House, Inc.** is based on FTA guidelines. In addition, Woodley House has developed policies and procedures in accordance with District Department of Behavioral Health regulations and requirements for providers of Mental Health Rehabilitation Services

As required, **Woodley House, Inc.** developed a written LEP Plan (below). Woodley House has evaluated data to determine the extent of need for translation services of its vital documents and materials based on 2016 American Community Survey (ACS) Census data and a report by the Urban Institute analyzing the success of the District of Columbia’s “DC Language Access Act of 2004³.” LEP persons can be beneficiaries of Woodley House services and reaching out to these individuals can help increase their utilization of mental health services. Therefore, it is necessary to understand the needs of LEP populations in the District to advise services and outreach.

Assessment of LEP Needs

The needs and resources for LEP language assistance were determined through a four-factor analysis as recommended by FTA guidance.

Factor 1: **Assessment of the Number and Proportion of LEP Persons Likely to be Served or Encountered in the Eligible Service Population**

Woodley House, Inc. has reviewed census data on the number of individuals in its service area that have Limited English Proficiency, as well as the primary languages they speak.

U.S. Census Data–American Community Survey, 2012-2016, 5 year-Estimates

Service Area: District of Columbia: (DC city limits, not the greater DC Metro area)

³ Bernstein, Gelatt, Hanson, et. al. (2014). “Ten Years of Language Access in Washington, DC.” Urban Institute

Total Population. Data from the U.S. Census Bureau’s American Community Survey (ACS) were obtained through www.census.gov for the District of Columbia service area. Information from the 2012-2016 ACS identifies the number and percent of the total population with Limited English Proficiency (LEP), those persons who indicated that they spoke English “not well,” and “not at all”. ACS data also provides detail on the specific languages spoken by those who report to be LEP, as presented below. These data indicate the extent to which translations into other languages are needed to meet the needs of LEP persons.

The agency’s service area includes a **total of 35,198 (5.7% of total population) of persons over 5 years old who are LEP.** The primary languages spoken are:

	Number	Percent
• Spanish	22,003	3.6%
• Other Indo-European languages	4,578	0.7%
• Asian and Pacific Island languages	4,137	0.7%
• All Other languages	4,480	0.7%

Population with Disabilities. An additional factor that must be taken into consideration is the limited population served by Woodley House: non-institutionalized adults, over the age of 18, with a diagnosed disability of severe mental illness. This further limits the number of individuals with LEP who come into contact with Woodley House services, benefits, materials, and transportation services.

Information from the 2012-2016 ACS provides details on the “disability status of civilian, non-institutionalized population” in the Woodley House service area. This data includes individuals with all types of disabilities (i.e. physical, visual, mobility, etc.); therefore, the results most likely over-estimate the actual number of adults over 18 years with severe mental illness, the primary population served by Woodley House.

ACS data on the number of non-institutionalized, civilian population with a disability in DC: **Total of 73,230 out of 648,263 (11.3%):**

	Number	Percent (% total pop)
18-64 years old with a disability:	43,159	6.6%
65 years or over with a disability:	24,876	3.8%

Conclusion. Based on the above data, it can be estimated that LEP individuals seeking Woodley House services is **likely to be less than 5%** of all individuals encountered. In addition, Woodley House serves approximately 300 men and women annually; therefore, that number is **likely to be less than 15 individuals per year.**

“It is noted that a relatively low number of LEP persons are served by Woodley House in the service area – no language is spoken by a total of 1,000 persons in the LEP Population.”

LEP Implementation Plan

The vast majority of clients seeking Woodley House services (over 90%) are referred by DC Department of Behavioral Health (DBH), Core Service Agencies (CSA). As a sub-provider to DBH/CSAs, Woodley House contracts to provide residential, life skills training, and Food Pantry services--a targeted subset of the services limited to adults with severe mental illness. DBH/CSAs identify and contract for the basic needs of these individuals, including identification of and accommodation for individual LEP needs. Referrals to Woodley House services are vetted and coordinated by CSAs; therefore, most referrals have been initially assessed and provided with Language Access Services, based on individual needs, before they encounter Woodley House staff/services. Woodley House cooperates with CSAs to ensure all individuals receive the Language Access Services they require to participate in all Woodley House programs, including transportation services.

Based on the analysis detailed above, Woodley House, Inc. has determined that the following language assistance services are most feasible and appropriate to ensure LEP individuals can participate in Woodley House services, including transportation services.

Translation of vital documents into Spanish, to meet individual needs, including:

- Emergency preparedness brochures;
- Intake and Consumer Acknowledgement documents;
- Consumer Rights, Consumer Choice and Consumer Grievance Procedures documents;
- In-person translation for direct service encounters;
- Availability of bilingual staff with competency in spoken and written Spanish;
- Language Line Translation Services for first-encounter contacts and non-Spanish speakers;

Access to Language Assistance Services: Woodley House staff who come into contact with LEP persons can access language services, in accordance with the following policies and procedures for providing language interpreters as needed for persons who do not use English as their primary language or who use non-verbal communication as their primary communication method in accordance with DCMR Title 22§ 3410.21 – 3410.23.

“Interpreter Services Policy (#22)”

22.1 Woodley House, Inc. (WHI) shall provide competent language interpreters as needed for persons who do not use English as a first language or who use a non-primary language for communication. These services shall be provided in a timely manner. All policies and procedures shall follow the applicable Federal and DC laws as well as those regulations outlined in §3410.21-23 of Title 22, MHRS Certification Standards. There are three services to address: a) English language interpreter, b) Sign language interpreter, and c) TTY communication services.

22.2 It is the responsibility of the Director of Clinical Services and the Director of Residential Services to ensure implementation of this policy.

22.3 The following procedures shall be followed to ensure compliance with this policy.

22.3.1 The Intake Staff shall identify each consumer's language needs as a part of the initial intake process. If the referral is made by phone, the Intake Staff will determine if interpreter services are needed so that arrangements can be made prior to intake. If a person is a walk-in referral, and it is determined that they are in need of interpreter services, arrangements will be made to provide an interpreter in a timely manner.

22.4 It is the goal of WHI to employ individuals who reflect the cultural and language competencies of the consumer population served. It is always preferable to request that a clinical manager, skills trainer, residential advisor, and/or other personnel assigned to a consumer have similar ethnic and language related backgrounds when available. However, the staff's expertise in another language does not qualify the staff member to be the designated interpreter in clinical meetings.

22.4.1 All language interpreters are prohibited from simultaneously functioning as a qualified practitioner and as an interpreter.

22.4.2 If no WHI interpreter is available, the Intake Staff will make arrangements to contract for language services. If no contractor is available, the Intake Staff will call the Languages Line Services at 1-800-752-6096 (See Attached Poster) to complete the initial intake.
